Profile

Web Developer, Networking Specialist, and Academic Research Lead with experience at Intel and Shrishti Schools. Skilled in ReactJS, JavaScript, Linux, Networking, and data-driven research. Proven ability to build internal tools, optimize system performance, and support academic and technical projects with efficient, user-focused solutions.

Education

M. Tech Information Security

Vellore Institute of Technology and Science

08/2023 – 05/2025 | Vellore, Tamil Nadu, India

CGPA: 8.39

B. Tech Computer Science and Engineering

Karunya Institute of Technology and Sciences

06/2019 – 05/2023

CGPA: 7.5

Skills

Web Development

: React JS, JavaScript (ES6+), HTML5, CSS3, PHP, REST APIs, WordPress

Networking

TCP/IP, Routing & Switching, Server Configuration, Firewalls, Packet Tracer, DPDK

Programming

Python, C, C++

Tools & Platforms

Git, Linux/Unix, MySQL, Bash, OpenCV

Cybersecurity:

Penetration Testing (VAPT), Cryptography, Network Security

Data & Research

Academic data analysis, Research reporting, Data-driven decision systems

Certificates

Ethical Hacking

Internshala - 08F4FD5D-91AE-65FE-11F9-060D7FCE9D85

Cybersecurity Essentials 🔗

Cisco Networking Academy

Introduction to Packet Tracer 🔗

Cisco Networking Academy

Introduction to Cybersecurity 🔗

Cisco Networking Academy

University Admission Prediction Using Multiple Linear Regression

Coursera - QTGHCHBRU7RY

Technical Support Fundamentals

Coursera - J7PGDA4U65VL

Programming for Everybody (Getting Started with Python)

Coursera - PLTHEXTT9H3P

Publications

Analyzing the likeness of a person based on DNS logs using machine learning *IEEE*

I along with my B. Tech Faculty Bertia Albert published this paper on DNS log based detection of person's likeness

Projects

God's Eye

Machine Learning | Python | OpenCV

This Python program was able to take multiple camera inputs and run facial algorithm on every single camera to detect people with database that was trained with only one image.

Karunya Clubs ReactJS webpages

For Karunya.edu - official college site | ReactJS

Developed 3 webpages with ReactJS for 3 different clubs and it is hosted in Karunya.edu  (the official website of my college) under the KIDS (Karunya Inovation and Design Studio) org.

COVID tracking Web Page

Developed a site that scrapes data from all the official Govt of India webpages and gives the realtime data on a dynamic looking svg India map with floating values that update every few mins.

Analyzing the likeness of a person based on DNS logs using ML

AI | ML

Using Reinforced learning my code analyses more than 70 million DNS records to determine what type of pre-defined set of category the person belongs to.

Shrishti Forms

ReactJS | Google Sheets

Developed a copy cat of Google Forms, for a school in Vellore, with linkage between Google Sheets and Google Drive.

Tiruvannamalai Vellore Sahodaya Schools Complex

Best Teacher Award 2025 | ReactJS | OAuth | Google Sheets | Google developer

Built a form for two district's Best Teacher Award. It is linked with Google OAuth, Google Sheets and Google Drive.

Professional Experience

Academic Research Consultant (Lead)

Shrishti Schools 

07/2025 – 11/2025 | Vellore, India

- Led NEP 2020-aligned academic research initiatives and developed internal ReactJS tools, digital forms, and webpages to streamline data collection and improve workflow efficiency.
- Analyzed academic and institutional data, prepared structured reports for leadership, and guided two team members in project execution, documentation, and digital tool deployment.

Solution Enabling Intern (Internship)

Intel Corporation

08/2024 – 05/2025 | Bangalore, India

- Optimized DPDK applications, improving packet processing performance by 15% and configured Linux servers, switches, and networking components, achieving 99% uptime.

Awards

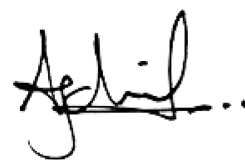

Third Place in Hackathon

KarunyaHacks

Got third Place in Hackathon during my college time.

Declaration

I certify that the details furnished above are true to the best of my knowledge and belief.

Adarsh Geoffrey Daniel
